

Customer Import Instructions

Clients of Agile now have the ability to import customer lists directly into the system.

1. [Log in](#) to **Administration**.

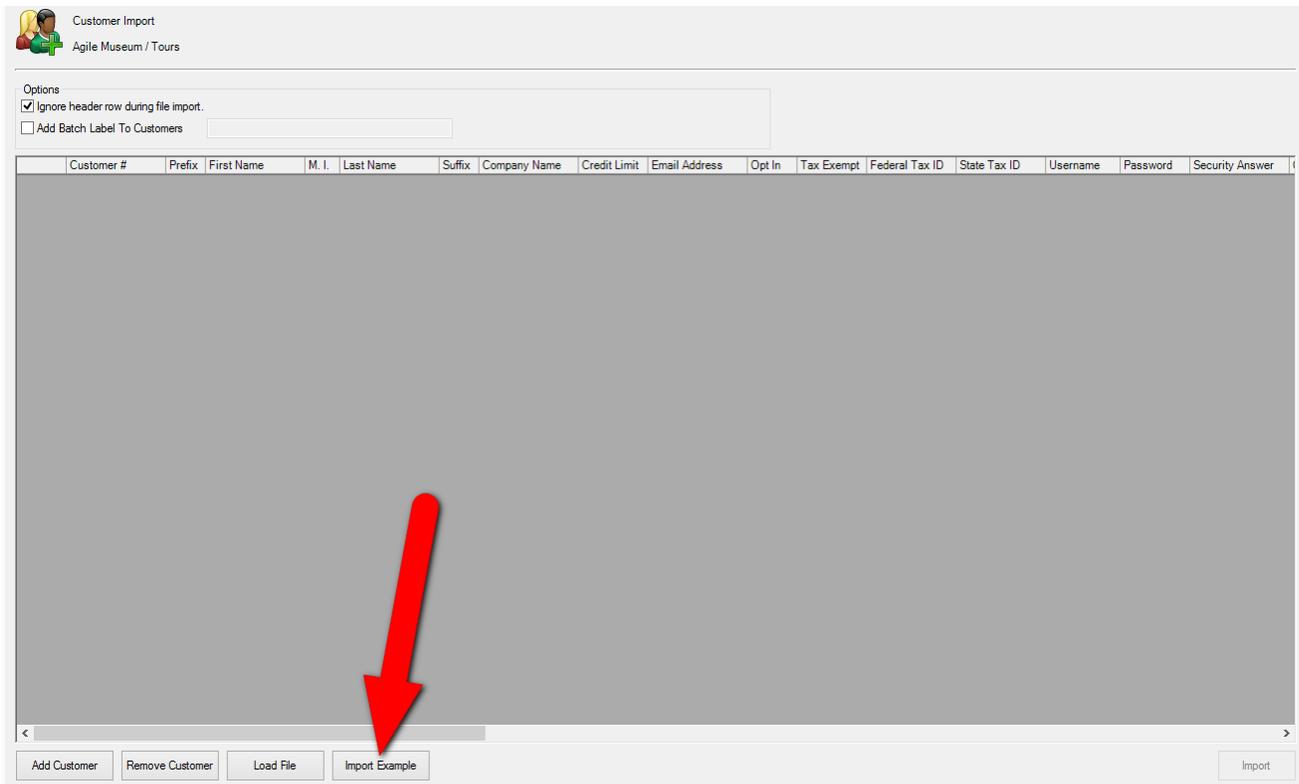

2. Select the **Corporate Organization** icon .

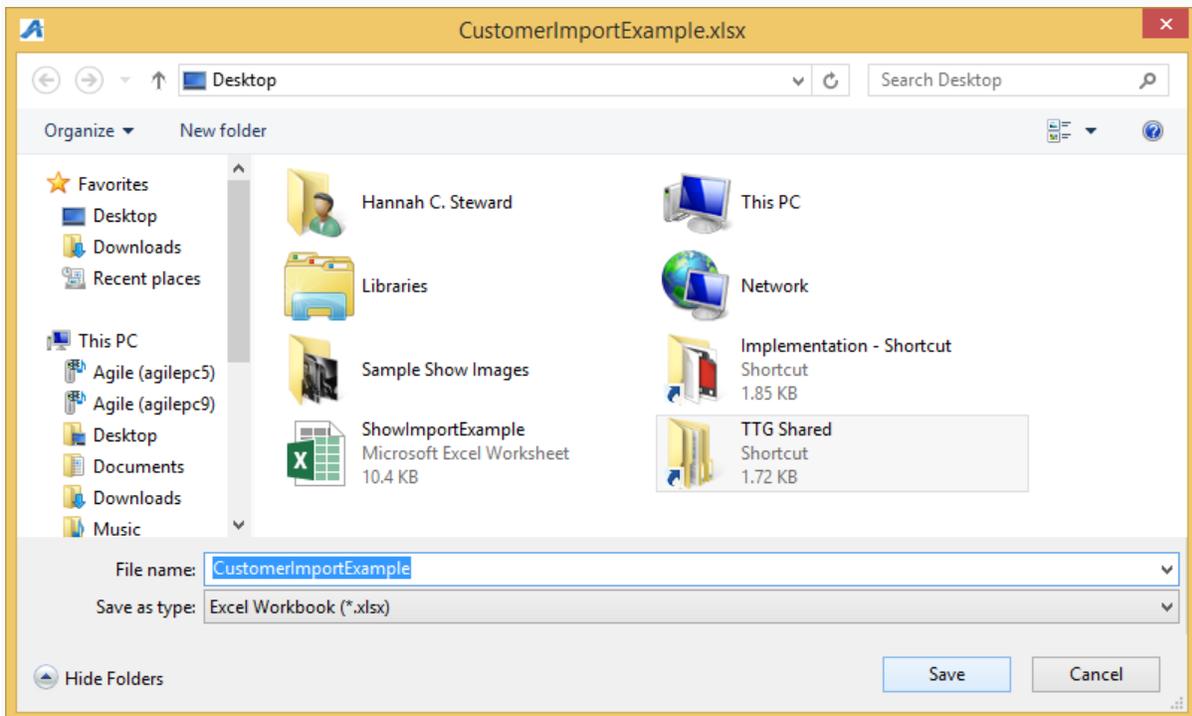

3. Open the **Customer** folder and click on the **Customer Import** button.

4. Select the **Import Example** button at the bottom of the screen. Then save the import spreadsheet that you will need to populate.

5. A pop up will appear for you to save the import example to your computer.

5. On the **Customer Import** spreadsheet fill in the information under each column.

1	Customer Number (optional)	Prefix (optional)	First Name	Middle Initial (optional)	Last Name	Suffix (optional)	Company Name (optional)	Credit Limit (optional)	Email Address (optional)	Opt In (optional)
2	1234		John	M	Smith				0 johnsmith@agiletix.com	TRUE
3										
4										
5										
6										
7										
8										
9										
10										

Note: Not all of the columns are required those that are optional are marked in the header.

Prefix (optional)	First Name	Middle Initial (optional)	Last Name
	John	M	Smith

You must have the information in the **required** fields filled out in order to successfully import your list. Once this is done make sure that you **Save** the spreadsheet.

6. Go back into **Administration** and open up the **Customer** folder and click on **Customer Import**.

*Note : the **Ignore header row during file import** is checked by default. Keep this checked in order to successfully import your spreadsheet.*

Customer Import
Agile Museum / Tours

Options

6	George	B	Wilson			0	watchingeyes@agil	<input checked="" type="checkbox"/>	<input type="checkbox"/>						<input type="checkbox"/>	

11. The progress pop up will appear.

12. Once you have reached 100% the **Save Import Results** pop up will appear. This will tell you about the results of your import (i.e. if there were any errors or if it was successful). Save this spread sheet to your computer for future reference.

13. Now you will be able to look up the **Customer** records you just imported.
