

Synopsis Of Reports

You can pull reports from the Report tab in Web Portal. To access web portal from the Agile Ticketing Solutions Application click on the Support Functions button at the top of the screen. Then click Web Portal.

The click on the Report button to the side of the screen.

New users for the Reporting portal can be added in Agile just as you would add for any new user in the system. This can be done in the Administration side of the Agile Application (See [Creating User Names for your Staff](#) for more information) or through the Web Portal (See [Adding New Users in Web Portal](#) for more information)

Reports are permission-based so if you do not see a report listed, first check with your organization's administrator or contact your Agile Client Support Representative.

ACCOUNTING

Accounting Audit- Pay Type Group and Account: This report pulls by specific batch numbers/date then summarizes payments by payment type (i.e. credit card/check/cash) and account type.
