

## How to Password Protect your Entry Point URL

Clients can now password protect a specific Entry Point URL. This will keep the specific URL hidden from general public view while allowing you to proof and perform live tests for this specific Entry Point when you enter the password.

### 1. Log into **Administration**

Username agilefilm1

Password \*\*\*\*\*

Domain agiledemo

Sales  Admin  Gate Control

Login

### 2. Click on the **Corporate Organization** icon

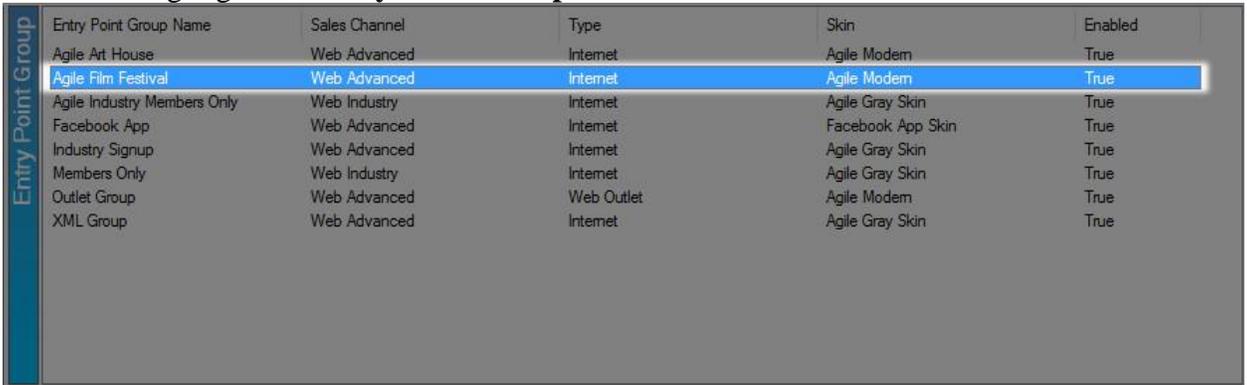

### 3. Select the **Web** folder

### 4. Click the **Entry Point** icon

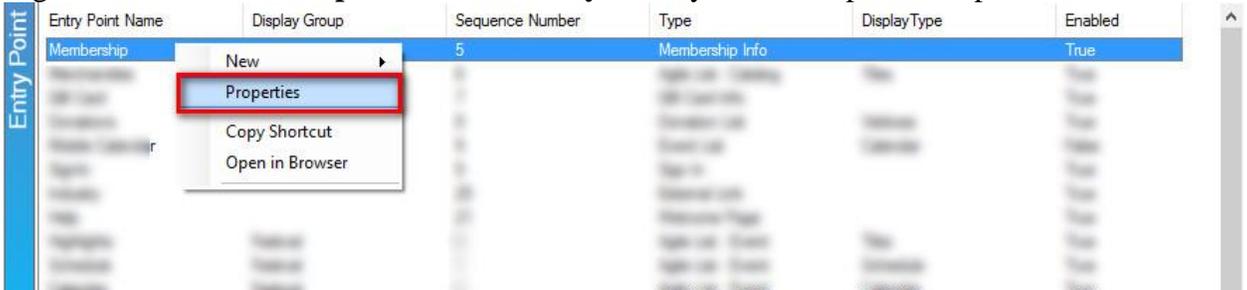

5. Select and highlight the **Entry Point Group**

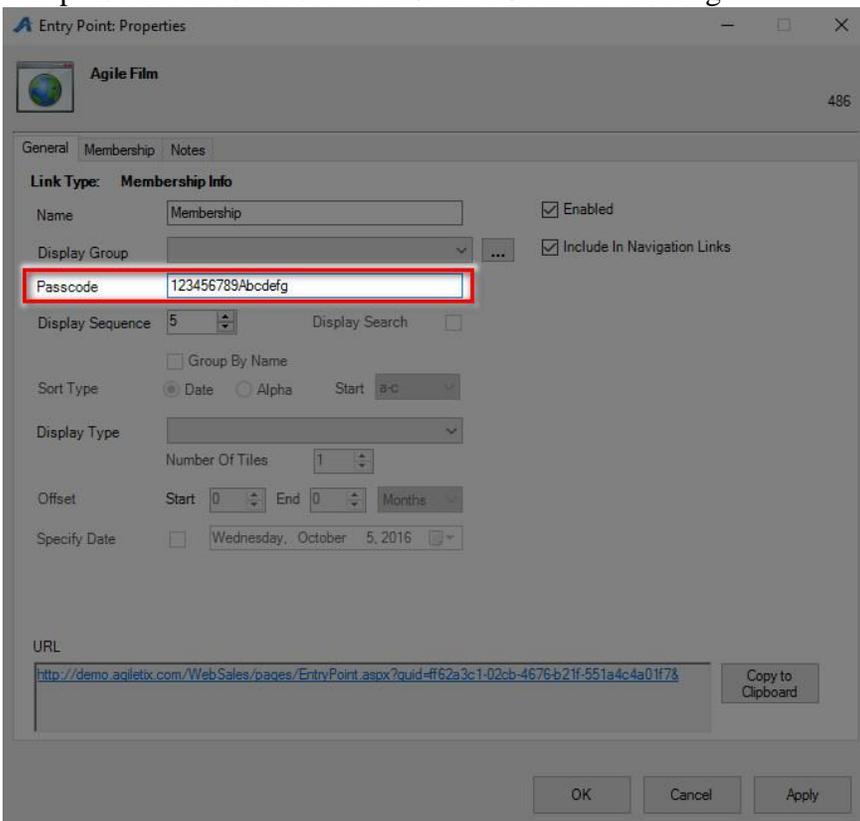

Entry Point Group Name	Sales Channel	Type	Skin	Enabled
Agile Art House	Web Advanced	Internet	Agile Modern	True
<b>Agile Film Festival</b>	<b>Web Advanced</b>	<b>Internet</b>	<b>Agile Modern</b>	<b>True</b>
Agile Industry Members Only	Web Industry	Internet	Agile Gray Skin	True
Facebook App	Web Advanced	Internet	Facebook App Skin	True
Industry Signup	Web Advanced	Internet	Agile Gray Skin	True
Members Only	Web Industry	Internet	Agile Gray Skin	True
Outlet Group	Web Advanced	Web Outlet	Agile Modern	True
XML Group	Web Advanced	Internet	Agile Gray Skin	True

6. Right click and select **Properties** on the **Entry Point** you wish to password protect.

Entry Point Name	Display Group	Sequence Number	Type	Display Type	Enabled
Membership		5	Membership Info		True

7. In the **Passcode** field, enter the password that you wish to use during the testing process. The password must be between 6 and 16 characters long.

Entry Point: Properties

Agile Film 486

General Membership Notes

Link Type: Membership Info

Name: Membership  Enabled

Display Group:   Include In Navigation Links

**Passcode: 123456789Abcdefg**

Display Sequence: 5 Display Search:

Group By Name

Sort Type:  Date  Alpha Start: a-c

Display Type:

Number Of Tiles: 1

Offset: Start: 0 End: 0 Months

Specify Date:  Wednesday, October 5, 2016

URL: <http://demo.agileitx.com/WebSales/pages/EntryPoint.aspx?quid=ff62a3c1-02cb-4676-b21f-551a4c4a01f7&>

8. Once completed, click **Apply** and **OK** to save and close the window.

9. When you are ready for your **Entry Point** to be available without the **Password**, simply repeat **Steps 1 through 6** and then remove the **Password** from the **Passcode** field.
