## Setting Up Your Customer Pole Display

After you have unpacked your new Customer Pole Display, you may follow the below instructions to install and begin using the Display. Find your operating system, and follow the below instructions. If you have issues getting the Display to work as expected, contact your Agile Ticketing Solutions Support Agent for assistance.

## Windows 10

1. Plug the Display into a **USB Port**. The system will automatically interface and install the necessary drivers.

- 2. In Agile log into Administration.
- 3. Open the **Settings** folder.

#### 4. Click on Location.

#### 5. Then, click on your **Organization's** name.

6. Below, right-click the specific terminal that you are installing this Display on, and

#### click Properties.

Name		Туре	Key	Assigned	Enabled
Art House Sandbox Terminal		Agent Managed Workstation	AHSKEY	True	True
Becky's PC	New	Agent Managed Workstation	ATS-ROUBOS	True	True
Bobby's PC	Properties	Agent Managed Workstation	ATS-BCASH	False	True
Hannah's PC		Agent Managed Workstation	ATS-Hannah	True	True
Hope's PC		Agent Managed Workstation	ADMINSTAFF	True	True
Recording Studio		Agent Managed Workstation	RECSTU	True	True

7. In the new window that opens, click on the **Other Devices** tab.

Termi	nal: Art House S	andbox Termin	al			949) 1441	×
Ŋ	Agile Demo Office	Sandbox					2184
General	Ticket Printers	Other Devices	CC Terminal	Interface Settings	Notes		
Ca	ash Drawer						
Mo	del # / Port Name	COM1			~		
G	uest Display						
Por	t Name	COM1			~		
	4000						

8. Enable the **Customer Display,** and select the **COM Port** that the Display is assigned to.

(This can be found in the computers Device Manager).

Port Name	COM1	~
	COM1 COM2 COM3 COM4 COM5 COM6 COM7 COM8 COM9 COM10	^
	COM11 COM12 COM13	

## Windows 8

- Windows 8 can require that you either follow the Windows 10 instructions or the Windows 7 instructions.
- 2. We suggest that you first attempt the Windows 10 set of instructions.
- 3. If that does not work, then contact your Agile Support Representative.

### Windows 7

# Contact your Agile Support Representative to help walk you through the installation process.

Before you begin, please ensure you have either Administrator Permissions or your IT representative with you.
